

THE DASHBOARD PAGE: INTRODUCTION

The **Dashboard page** is the first page you will see when arriving into LiveDesk

The Dashboard page is primarily an information page that presents you with useful information and functionality to assist you in managing your working day and week.

The Dashboard page is comprised of **four widgets** – these widgets contain useful information and are **highlighted below**. The next few pages will outline the information and functionality this page offers you as an agent.

The screenshot shows the TeamTonic Dashboard interface. The left sidebar contains navigation options: Dashboard (highlighted), Scheduler, Apps and Docs, and Holidays. The main content area is divided into four highlighted widgets:

- Widget 1 (BULLETIN):** A list of client-related updates. It includes:
 - Client: Blackberry
 - Client: Test Client
 - Port Meadow (21 Feb, 2022)
 - Client: MediaOne
 - Client: Cloudworks Staging Client
 - alarm New (21 Feb, 2022)
- Widget 2 (MY DAY):** A daily schedule view for the current day. It shows a timeline from 08:00 to 19:00 with various activities and their status. A legend at the bottom identifies the colors: Scheduled (blue), Adhered (green), On Break (yellow), No Show (orange), and Overtime (red).

Time	Activity	Status
08:00		Scheduled
09:00 - 11:30	Calls	Adhered
10:00	Broadband	Adhered
11:00		Adhered
12:04		Scheduled
12:30 - 15:00	Emails	Adhered
	Broadband	Adhered
13:00		Scheduled
14:00		Scheduled
15:00		Scheduled
15:30 - 17:00	Emails	Adhered
	Broadband	Adhered
16:00		Scheduled
17:00		Scheduled
18:00		Scheduled
19:00		Scheduled
- Widget 3 (CURRENT WEEK):** A summary of the current week's performance for the period Apr 18 - Apr 24, 2022.

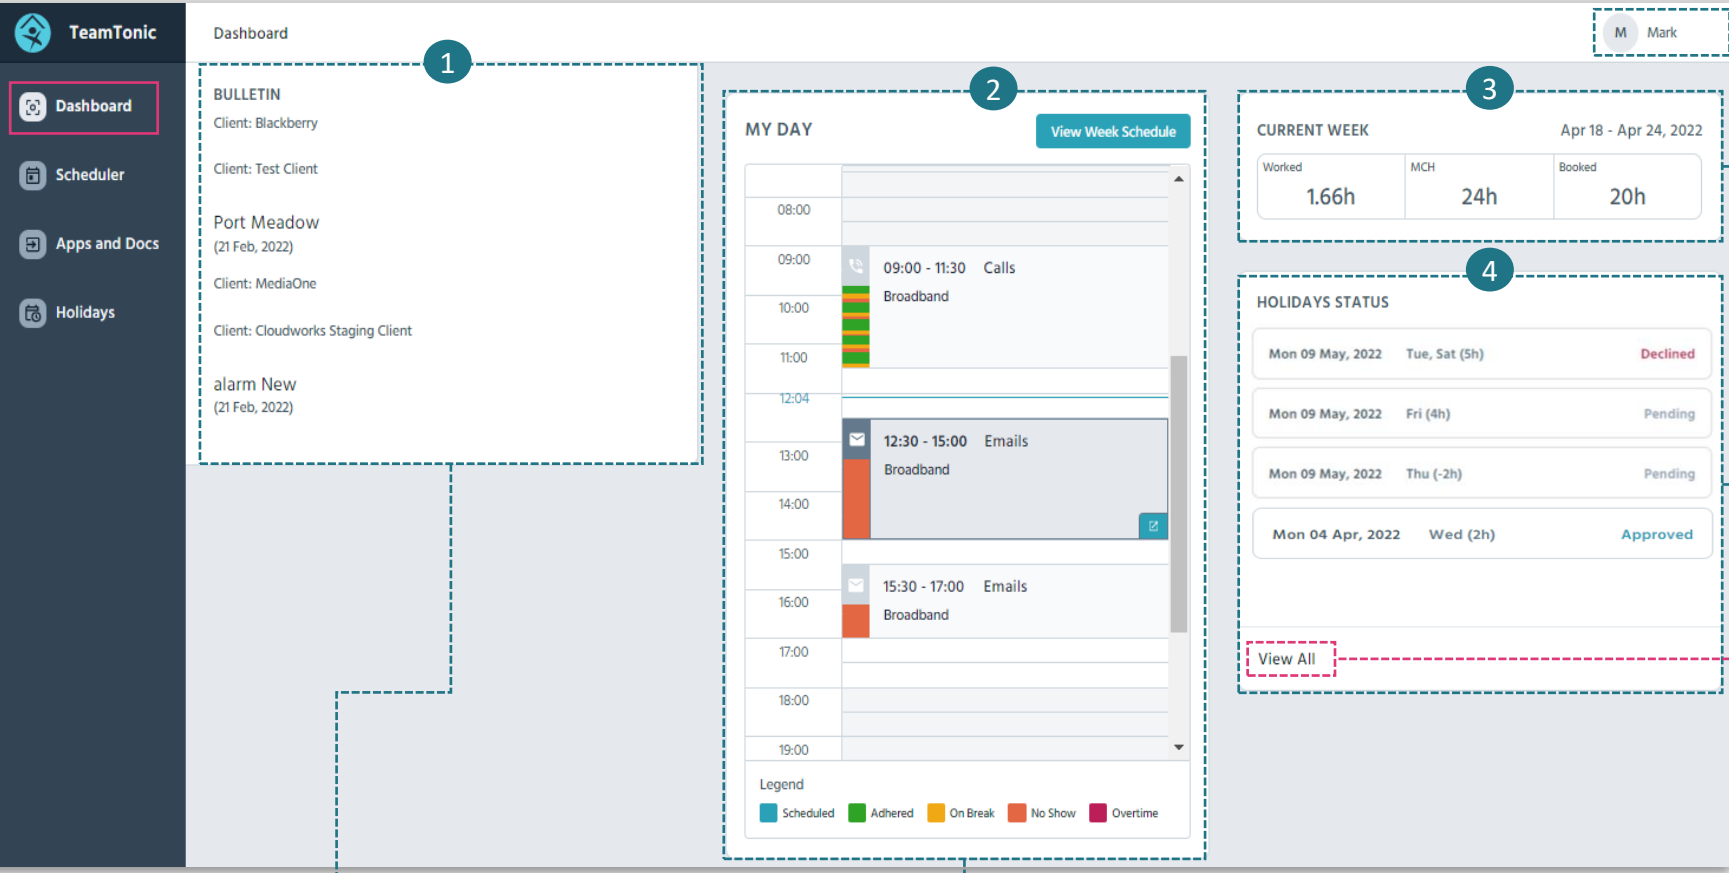

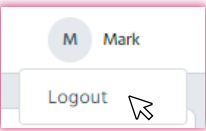

Worked	MCH	Booked
1.66h	24h	20h
- Widget 4 (HOLIDAYS STATUS):** A list of approved holiday requests.

Date	Day	Hours	Status
Mon 09 May, 2022	Mon (-4h)		Approved
Mon 02 May, 2022	Sat (2h)		Approved
Mon 18 Apr, 2022	Fri (4h)		Approved
Mon 04 Apr, 2022	Wed (2h)		Approved

THE DASHBOARD PAGE: OVERVIEW

The **Dashboard page** provides a **summary** of your current day and week. It also allows you to view your most recent holidays, and contains a number of 'quick links' designed to assist you in opening applications and accessing pages within TeamTonic in an efficient manner.

• Your username is displayed at the top right hand side of all pages within TeamTonic.
• At the end of your shift select this option to **log out**:

1 The Bulletin displays important company updates

2 My Day: Provides a summary of your shifts for the day in addition to providing links to applications required to work that activity, and adherence information for the day.

3 The Current Week module:

- **Worked**: displays the hours you have adhered, in addition to any overrun and client-app downtime exceptions.
- **MCH** confirms the number of hours you are required to work for the current week
- **Booked** confirms the hours you have booked for the current week, and allows you to make sure you are achieving your MCH for the current week.

4 The Holiday Status section:

- Displays a summary of your most recent holidays, and whether your holidays have been **Approved**, are Pending approval, or if they have been **Declined**

! The **Booked metric does not** include holidays – this can be checked on the scheduler page if you want to make sure you have booked your MCH for the current week (this is discussed within the Using Preferred Scheduling and the Scheduler article)

Selecting the **View All** option will take you straight to the Holidays page within TeamTonic (see the article 'Managing your Holidays and Using the Holidays Page' for further details relating to Holidays)

THE DASHBOARD PAGE: A CLOSER LOOK AT THE MY DAY WIDGET

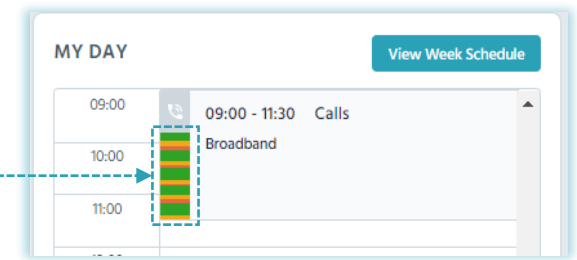

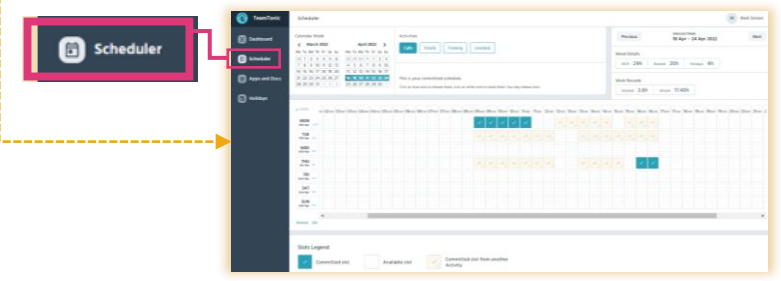

The **My Day** widget located at the middle of the dashboard page provides you with an 'at a glance' summary of your working day in addition to providing you with 'quick links' to other areas of TeamTonic, and your adherence information:

Icons allow you to see at a glance which activity you are booked into work:

- Calls:
- Training/Coaching/Grad Bay:
- LiveDesk:
- Emails:
- Admin:

The **View Week Schedule** button is a quick link to the scheduler page (the **Scheduler** page is discussed in more detail later).

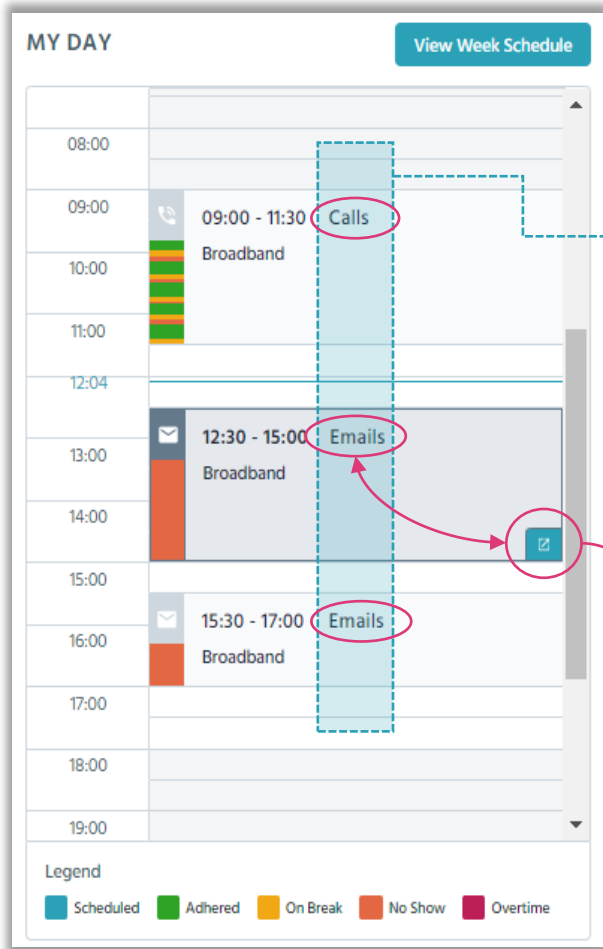

Adherence information for each of your shifts is available by 30 min slot booked – this is for your information only and is dependant on the account (some accounts do not provide real time information). **No Show** will be applied as a default status for slots in the future (or if the account you work on does not provide real time adherence data until this information has been provided by the client).

THE DASHBOARD PAGE: ADDITIONAL FEATURES

The **My Day** section is primarily an 'information at a glance' page that provides you a snapshot of your current daily and weekly position, in addition to a summary of your holidays. Although this page exists to provide you with helpful information, it also contains a number of convenience features in the form of quick links to applications for the type of activity you are booked to work, and quick links to other areas of TeamTonic.

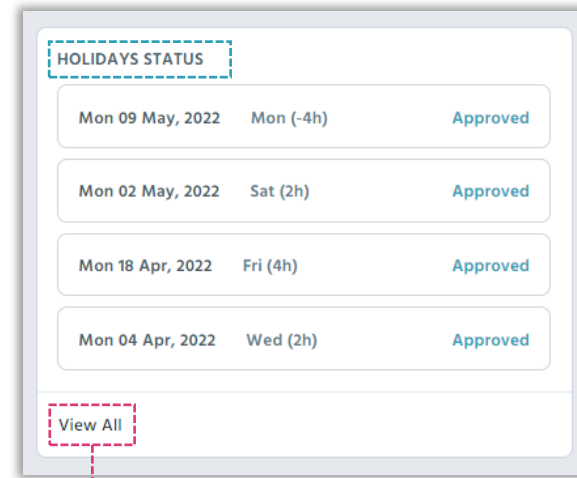

The **type of activity** you are booked into work is displayed **by the side of your shift times**:

The **account** you are booked into work is displayed underneath your booked shift time (in this example the account name is **Broadband**):

This quick link opens the application you need for the type of work you are booked in for your next or currently booked slot, whichever is closest to the current time (in this case 'Email' work). This is a convenience feature as all applications are available via the Apps and Docs page (see the article 'Using the Apps and Docs Page' for further information on this specific page).

Your most recent holidays are summarised on the Dashboard page within the **Holiday Status** widget. The Dashboard page also provided a quick link to the Holiday page within TeamTonic. To access this page simply select the **View All** button at the bottom of the Holiday Status widget (the Holidays page is discussed in further detail within the 'Managing your Holidays using the Holidays Page' article).
