

The **Default Schedule** has a number of convenience features designed to make your hours selection process as easy as possible.

In addition to confirming your base-MCH, the **hours selected metric** will change in real-time to reflect any changes you make to your selected hours in any given week:

MCH	24h
Hours Selected	35h

In the below example the user has **added 06:30-07:30 on Monday** as a time that they are available to work, and as a result their hours selected metric has increased to **36.5 hours**:

**Preferred Schedule**

Please select the slots you would like to work every week.

Before the committed week, the system will try to book these slots for you automatically.
